

Motivating for High Performance

Programme with Motivational Maps®

MOTIVATION - THE DRIVING FORCE

This programme provides an introduction to Motivational Maps – a revolutionary new profiling tool that measures and describes motivation. Managers use this information to develop personal strategies to improve motivation in the workplace. In fact, it provides the first real language of employee motivation.

The Motivating for High Performance programme brings right up to date over 65 years of research into the subject of motivation and applies it directly to the world of work today.

Using each participant's Motivational Map and, for team development, the Motivational Team Map, the Programme enables individuals to understand what drives them, what drives others and the relevance of this to each stage of the employment life cycle.

WORK
Builder : Director : Expert

RELATIONSHIPS
Friend : Defender : Star

SELF
Searcher : Spirit : Creator

This deep understanding is then used to boost team performance, improve appraisal discussions, maximise retention and review the effectiveness of personal reward strategies.

PROGRAMME OVERVIEW

- ✔ Motivation: the business case
- ✔ A short history of motivational theory
- ✔ Background to the Maps
- ✔ Introducing the language of motivation
- ✔ Your Motivational Map
